Continuation Sheet (PTO-303)

Application No.

Continuation of item No. 11

In the response dated 12/1/2008, applicant asserts that Humbard of the record is disqualified as a prior art based on claims priority of the additional earlier patent application serial No. 09/488,361, filed on January 16, 2000, now U.S. Patent No. 6,421,067 ('067). Applicant briefly states in the response that the '067 discloses the invention of each pending claim in the manner provided by the first paragraph of 35 U.S.C 112, first paragraph. However, examiner respectfully disagrees and requests applicant to specifically point out the disclosure in the specification of the '067 patent for every limitation in each of the independent claims of the instant application to support the above statement. Examiner submits that the specification of the '067 patent or application serial No. 09/488,361 does not fully disclose the invention of at least each of independent claims of the instant application in accordance with 35 U.S.C, 112, first paragraph. Therefore, applicant is not entitled to the benefit of the additional earlier patent application serial No. 09/488,361, and the Humbard reference of the record is still qualified as prior art for rejection of the claims.
